

Assembly Instructions

No more going empty handed to your bestest friend's birthday Sharp Pencil Quality TV is your cheapest, coolest, sharpest gift around. Still, some investment is required. Glue, Scissors n' two Pencils you will need.

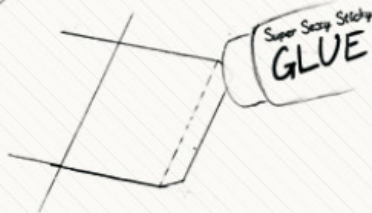

Print the Sharp pencil Quality TV kit yourself or better yet make your daddy print it for free on his high quality office color printer.

1.

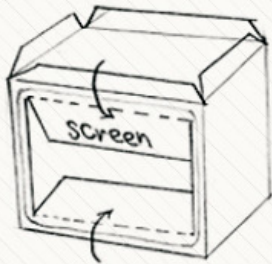

Cut at solid lines and bend at dashed ones. Fear not paper cuts, nor relegate the task to anyone. Cut it your self. Curses upon you if you don't!

2.

Put some glue on the flaps, not to much, don't get your fingers sticky.

3.

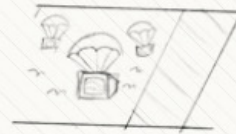

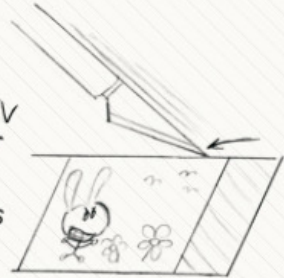

Assemble the top first. Screen flaps go inside.

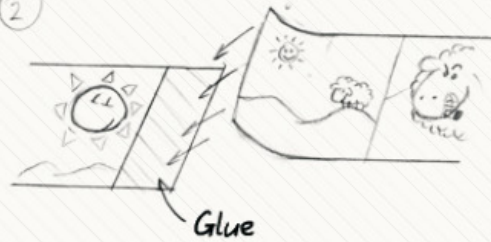

Print the film strips on the thin but strong paper.

1.

Sharp Pencil Quality TV even lets you make your own edits. Cut, splice and insert any subliminal messages you might wish to impose upon yourself.

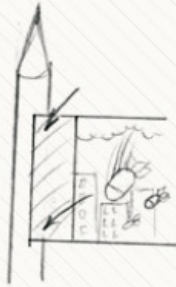

2.

Glue

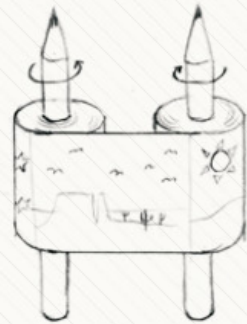

Glue the film strip together.

3.

4.

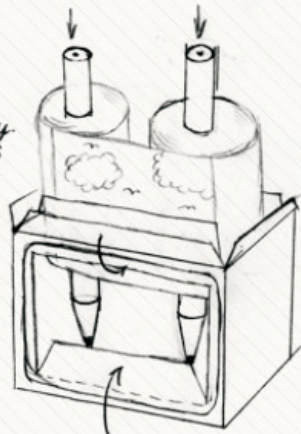

...and roll

Stick it to the pencil. One pencil on each end.

1.

Insert the film roll into the box, carefully. Slide the screen flaps behind the film strip.

2.

Put the lid on the box. Enjoy!
